TOKIO, May 4, 9 P. M.—The reports which have been received here of the successful blocking of the entrance to Port Arthur habbor by the Japanese, coming on the lecis of the news of the victory on the Yalu, stirred Tokio to another popular demonstration, and tonight thousands of men carrying lanterns, swinging high from bamboo poles, paraded through the city. Half a dozen bands of music led the various processions. The offices of the War and Navy Departments and of the general staff were the scenes of the greatest enthusiasm. The imperial princes visited the Navy Department and the assembled crowd welcomed them with cheers. Then the throng demanded Admiral to, chief of the general staff, and the here of the fight on the Yalu during the Chino-Japanese war. The losses on both sides, which are expected to reach 1,000, and possibly 1,200, in the Russian force, and twice that number for the Japanese, make it one of the bloodlest fights in history. At the river crossing the Japanese dead lie piled up literally in heaps, and General Kuroki's success was heaps, and General Kurokl's success was purchased at such a heavy cost that the Russians are disposed to regard it as rather a defeat than a victory for him. OVER QUARANTINE LAWS

(By Associated Press.)

WASHINGTON, D. C., May 4.—The only information the Department of State has touching the reported friction between Mexico and the State of Texas over the cattle quarantine is contained in a short telegram from United States Consul General Hanna, at Monterey, saying that Texas has threatened a quarantine against Mexican cattle; that the Mexican cattle are free from disease, and that the proposed action might lead to retaliation. The matter may involve an interesting question as to the supremacy of State and national quarantine laws. The Department of Agriculture, through the Bureau of Animal Industry, probably will take part in the investigation likely to be made.
